## **Sports and Entertainment Spotlight: Member of the ROC Figure Skating Team Is Suspected of a Doping Scandal, and Former Miami Dolphins Coach Brian Flores Maintains His Stance on NFL's Discriminatory Hiring Practices**

By Joshua Bloomgarden on 2.10.22 | Posted in Sports & Entertainment Spotlight

*Welcome back, and in case you've been living under a rock (unless it's a "30 Rock"), two of the biggest sporting events will command millions upon millions of eyeballs for NBC this weekend with the Winter Olympics (already in full swing in Beijing) and the National Football League's (NFL) Super Bowl LVI due to kick-off on Sunday between the Cincinnati Bengals and Los Angeles Rams (and Madison Avenue Agencies). However, at least for the time being, both Olympic and NFL news have largely been focused on matters taking place "outside the lines." At the Olympics, a medal ceremony in figure skating was postponed for legal reasons – namely a member of the purported gold-medal winning Russian Olympic Committee (ROC) team having a suspected positive doping test. Already on thin ice for widespread doping violations, one wonders whether ROC is once again up to its old tricks or whether this is an isolated incident by one triple (k)lutz. Or perhaps, whether the figure skating team will be heralded as mettlesome or admonished as medal-less. In the NFL, former Miami Dolphins coach Brian Flores' lawsuit alleging discriminatory hiring practices remains a hot button topic. Just this past week, we learned of Commissioner Roger Goodell voicing displeasure with the NFL's lack of diversity in coaching and front office positions, while two of the NFL's co-defendant teams, the Miami Dolphins and Houston Texans hired minority coaches Mike McDaniels and Lovie Smith, respectively. Meanwhile, media mogul Byron Allen is rumored to be preparing a bid to buy the Denver Broncos (another co-defendant), and in so doing, make the Broncos the first Black-owned NFL team. While those moves – calculated or not – may undermine Flores' case, in just two weeks, Flores' taking a stand has seemingly sparked soul-searching, for which Flores should be commended. From Olympic torches and stadium lights, let's jump into the "Spotlight."*
