The NYU 81st Institute on Federal Taxation (IFT) returns to in-person programming this year in New York City on October 23-28, 2022, and in San Diego on November 13-18, 2022.

This year, I will be presenting my white paper "Entity Classification – The Check-The-Box Regulations Revisited." Our discussion will cover recent developments in the law relating to entity classification, limitations under the check-the-box regulations, flexibility and planning opportunities created by the regulations, traps that exist for the unwary, and practical planning opportunities for tax advisers.

I am extremely grateful to have had the opportunity to present with IFT for more than a decade. During this year's Institute, I will again be presenting as part of the Closely-Held Business program, chaired by my esteemed colleague Jerry David August, on the mornings of [October 27 \(NYC\)](#) and [November 17 \(San Diego\)](#).

As in previous years, the 81st IFT will cover a wide range of areas, including tax controversy, executive compensation and employee benefits, international taxation, corporate taxation, real estate taxation, partnership taxation, taxation of closely-held businesses, trusts and estates, and ethics.

I hope you will join us for what will be a wonderful program packed with new information and tools that will help you in your tax practice. Looking forward to seeing you in either New York or San Diego!
