2013 Cascadia Educational Conference a Success

By Greg Duff on 3.7.13 | Posted in Data Privacy

Over the past 2 days, MPI hosted its annual Cascadia Educational Conference in Portland, Oregon. I had the pleasure of participating at this year's event, presenting on group sales issues and privacy. Copies of my presentations are available here: [Group Sales Contracts: Interesting Case Studies](#) and [The Rising Significance of Guest Information](#).

Congratulations to MPI for another terrific event. I look forward to hopefully seeing everyone at next year's Conference.
