GSB is a co-sponsor of an exclusive Seattle premiere screening of the feature film **Mary Janes: The Women of Weed**, hosted by Eden Labs, Inc., in Seattle Art Museum's The Pletscheeff Auditorium from 6:30 - 10:00 p.m. on Tuesday, May 15, 2018.

The film, directed by award-winning Director/Producer Windy Borman, explores the movement to end marijuana prohibition and Borman's assumptions about the plant. Through a series of empowering and educational interviews with the industry's "Women of Weed", Windy's assumptions are transformed as she discovers how cannabis liberation intersects with the most urgent social justice issues of our time. She learns how this green revolution has big effects on environmental sustainability, ending the War on Drugs and the Prison-Industrial Complex, changing the medical industry, and the destructive domination of Big Pharma.
