

"An AI Odyssey: How Practitioners Are Leveraging Artificial Intelligence," ABA Section of Environment, Energy and Resources Fall Conference

Speaking Engagement
October 23 - 25
Seattle, WA

Join [Justice Brooks](#) on Friday, October 25 moderating the panel, "An AI Odyssey: How Practitioners Are Leveraging Artificial Intelligence," at the [ABA's Section of Environment, Energy and Resources \(SEER\) Fall Conference](#).

The panel includes professionals from a variety of industries including law, science, technology, government and business. Panelists will discuss the transformative potential of AI in conquering the toughest challenges in the practice of environmental, energy and resources law, including sustainability, compliance and reporting. Explore the transformative potential of AI in driving sustainability, ensuring regulatory compliance and shaping a greener, more resilient future for generations to come.

The 32nd Fall Conference is an opportunity to hear from leading practitioners and to learn about challenges and opportunities shaping the environment, energy and resources law.

Secure your spot at the conference on the [ABA website](#).
