Steven R. Peltin

The NASCUS State System Summit is a unique event which brings together credit union regulators and practitioners for mutual exchange and dialog. It's a rewarding opportunity for both groups, as they listen to ideas, share thoughts and look for solutions to the challenges and opportunities facing the state credit union system through dialog and networking. You, your directors and your staff can take advantage of this outstanding opportunity too — to participate in educational workshops, insightful discussions and networking events geared specifically toward the state credit unions system — CEOs, state regulators and industry leaders!
