Emily Harris Gant

Related Services

Food & Beverage

Vineyard and winery employers are invited to join us for this free COVID-19 webinar with experts from Foster Garvey PC and Moss Adams. We'll break down the CARES Act, update you on federal tax changes, identify some key considerations in contracts and insurance recovery, and review Washington liquor laws for producing and selling wine in this unprecedented time.

Registration is required; there is a maximum cap on attendance.

Due to anticipated attendance and our desire to provide as much valuable information as possible in a short time frame, Q&A will not be conducted during the webinar, but upon registering, you will be asked to submit a question to help shape content, and we will be taking questions for follow-up responses post-event.

To register, visit [Washington Wine Institute's website](#). Instructions will be provided day-of webinar to registered attendees.
