mhorner@greenbaumlaw.com

I truly enjoy the legal process, from uncovering important facts to building supported legal arguments and finally, obtaining favorable results for the client. Effective communication is critical to the success of that process, and to fulfilling the goal of providing robust and goal-oriented representation.

Mr. Horner concentrates his practice in commercial litigation. His work in supporting the firm's representation of clients includes researching legal issues and the drafting of legal memoranda, briefs and motions, as well as assisting in the discovery process. He has gained valuable experience in various areas of the law, including civil and criminal litigation, family law, and personal injury matters. He also assists in construction law matters, including those involving construction liens, defects, contract enforcement issues, and disputes between developers and owners.

Results may vary depending on your particular facts and legal circumstances.
