There have been evolving concerns for employers due to the COVID-19 pandemic, as well as confusion about the new CARES Act, passed on March 27, 2020. The CARES Act is part of the federal government’s compilation of economic stimulus legislation intended to aid the American people during this unprecedented time.

This webinar will address the relevant provisions of Title II of the CARES Act, as well as recommendations on general employment practices to support the health of businesses as we move forward from COVID-19.

The program will address the following topics:

- Unemployment insurance provisions in the CARES Act, which include:
 - An additional \$600 per week and no “waiting” week for State eligible unemployed;
 - An additional 13 weeks of unemployment benefits for all unemployment benefits recipients; and
 - Unemployment Benefits for Many Currently Ineligible for Benefits.
- Short-term compensation programs or “work sharing” options
- Rebates and other individual provisions contained in the CARES Act, including 2020 recovery rebates to individuals, increased participant loan limits and repayment, enhanced distribution options for retirement funds, continued participation in employer group health plan during a furlough, and charitable contributions.
