

Physician-Owned Management Services Organizations: Regulatory Compliance, Contract Considerations, Enforcement

Live Webinar

June 9, 2021

Event Sponsor: Strafford

Glenn P. Prives, a partner in the firm's Healthcare Department, will be a panelist for the live webinar "Physician-Owned Management Services Organizations: Regulatory Compliance, Contract Considerations, Enforcement," to be presented by Strafford on Wednesday, June 9, 2021 from 1:00pm – 2:30pm.

Physician-owned Management Services Organizations (MSOs) can be designed to cover various services, including financial management, coding and billing, and purchasing, to optimize the operation of the practice. The physician practice may also turn to an MSO to provide services such as risk management and regulatory compliance.

Counsel must carefully structure MSO agreements to ensure compliance with the complex regulatory requirements, including anti-kickback laws. Further, physicians must understand exactly what services the MSO is providing and the limitations of the MSO.

This program will feature a panel of healthcare attorneys for an examination of physician-owned MSOs. The program agenda will address the following topics:

- Contract considerations
- Regulatory issues
- Recent government investigations and enforcement
- Best practices

Mr. Prives concentrates his practice in the areas of healthcare and corporate law. His experience on behalf of healthcare industry clients encompasses hospital-physician alignment, mergers and acquisitions, affiliations, alliances, strategic transactions, joint ventures, recruitment matters, the drafting and negotiation of contractual agreements, healthcare information technology issues, integrated delivery systems (population health) and clinical integration matters. He also counsels clients on a variety of healthcare regulatory matters, including Stark, Anti-Kickback, state self-referral laws, fraud and abuse, HIPAA, health care reform, Medicare and Medicaid issues, coverage and overpayment issues, compliance, regulatory and due diligence reviews, licensure and certification issues, the corporate practice of medicine and fee-splitting laws.
