ABOUT THE CONFERENCE

Over the past 26 years, this event has evolved into the foremost conference of its kind in Western New York. Each year it provides environmental professionals an opportunity to stay updated and informed on the latest regulatory and technical developments in our field. Attendees will hear experts representing industry, regulatory, legal and consulting disciplines.

All proceeds from the seminar go towards environmental scholarships for our future professionals. We thank you for your support and look forward to your attendance.

In an effort to expand the reach of our section, we would encourage attendees to bring at least one colleague or business contact with them to this year's seminar. We will be raffling off free local memberships that they can potentially win, and plan to have sheets available for feedback on the type of programming and materials that would be of interest to them. Thank you for your consideration!
