Topics:

- Status of the Hydraulic Fracturing Supplemental Generic Environmental Impact Statement (SGEIS)
- PSC Pipeline Enforcement: While New York law has placed jurisdiction over intrastate pipelines with the PSC, only recently has there been enforcement activity. We will examine the law and advise on how to avoid enforcement actions.
- Worker Classification: When are independent contractors actually employees? We will provide useful advice on how to identify misclassification risks, deal with audits and claims, and mitigate liability associated with misclassification.
