Seminar
The Offices of Hodgson Russ LLP, 140 Pearl Street, Buffalo NY
February 9, 2017

February 9, 2017
The Offices of Hodgson Russ LLP, 140 Pearl Street, Buffalo NY

Big Data is being used to make the world a safer place. Law enforcement agencies are using a variety of advanced technologies to predict and prevent crimes. It's also used for responding to and solving crimes thanks to social media, email, security cameras, cellphone data, and other technologies.

Hodgson Russ, in collaboration with IBM, cordially invites you to a Big Data Dialogue, focused on the groundbreaking emerging technology discoveries that are being implemented by leading law enforcement organizations and practitioners to make better and faster decisions.

AGENDA:

Ian Williams, Toronto Police
Keynote Speaker

Doug Plaxton, IBM
Law Enforcement Analytics, IBM Analytics

Frank Marzolini, IBM Buffalo
Next Generation Data Driven Policing

Jay Goodwyn, IBM Buffalo
Buffalo Innovation Center Overview
