This seminar will present detailed information on specific compliance risk areas, improving compliance, and decreasing your chances for Medicaid repayments.

Topics:

- Mandatory compliance programs — preparing and implementing effective programs
- New OMIG self-disclosure protocol: Should you self-disclose? If so, how?
- Understanding OMIG and prioritizing risk
- Preparing for OMIG priority audits
- What to do if a self-disclosure or compliance failure results in an audit or enforcement action
- FERA — how will changes to the federal False Claims Act impact Medicaid providers?

Who should attend: Compliance officers, CEOs, CFOs, presidents, medical directors, executive directors, human resources managers, and reimbursement and finance personnel
