Data Privacy Update: GDPR and the newly enacted California Consumer Privacy Act

“Effective privacy and data protection would benefit from a globally harmonized framework. People around the world have called for comprehensive privacy regulation in line with, among others, the European Union’s General Data Protection Regulation. New privacy regulation in the United States and around the world should build on some of the protections provided by GDPR.

To explore these critical issues in-depth, the SSA and STA are hosting a special joint webinar with two Data Privacy experts on Thursday, April 18th at 2pm ET.
