Christian Soller spoke with Rensselaer County Attorney's summer law interns as part of the *Beyond the Office* program.

Beyond the Office is a series of informal meetings designed to allow the law students in the summer program to meet influencers that: serve or have served in county government; serve in a government, non-profit, or business organization that touches the work of the County's office; or otherwise impact the policies, finances, or operations of county government.

Christian joined Carl Kempf III, Rensselaer County Attorney, and Kelly Cramer, Deputy County Attorney, to discuss best business development methods, how to inspire the confidence and trust of clients, and the outlook for private practice in the Capital District in the coming years.
