Event Sponsor: NYSSCPA Business and Industry Conference

October 20, 2021

This is a unique opportunity for NYSSCPA members who practice outside public accounting to hear from experts on specific topics that provide a high-level update with a focus on where to go to get answers. The committee has selected topics that are most relevant right now to CPAs practicing in Industry and the conference is designed to start the conversation about those topics, encourage discussions, and provide resources for finding answers. Tim Noonan will present "State and Local Taxes: What Your Business Needs to Know Coming Out of the Pandemic."
