

Your Safety Record Impacts Contracting Opportunities

Associated General Contractors of Minnesota Safety & Health Committee Meeting, 525 Park Street, #110, St. Paul, MN 55103
05.10.2018

Aaron Dean was asked by Associated General Contractors of Minnesota (AGC) to provide a presentation to its General Contractor and Subcontractor members about the impact of a contractor's safety record on contracting opportunities on public and private construction projects. Aaron's presentation to the AGC of Minnesota's members will discuss recent OSHA initiatives, recent record setting fine cases, fatality and serious injury cases, and how to handle an OSHA investigation from start to finish.

The AGC of MN Safety Committee is open to all safety professionals from member companies. These casual meetings involve discussion on hot safety topics and allow participants to share best practices. Guest speakers present on a variety of safety and loss control topics.
