

# Family Business Succession

Illinois Chamber of Commerce, Webinar  
October 13, 2016 | 10:30 AM - 11:30 AM

Business succession becomes slightly more complicated when it's among family members. Joe Demko covers techniques on how to start the discussion of passing a company down from one family member to another, best practices and how to transition ownership of the business. Family business succession requires more than basic buy-sell agreements, and attendees will learn the in's and out's of how to effectively make this transition.
