

Facilitated the Merger of Two Long-Term Successful Social Service Agencies

Ann Rieger facilitated the merger of two long-term, successful social service agencies. Through her representation, a local pregnancy support agency was able to combine forces with a complimentary social service organization to create a single entity able to provide higher quality service than either agency could accomplish individually. The newly structured continuing organization is now able to provide a seamless continuum of service to persons who otherwise lack financial, health and social supports.
