

Handled the Motion to Vacate a Default Judgment Against an Indiana LLC

Amundsen Davis handled the motion to vacate a default judgment against an Indiana LLC that had been entered by the Northern District Court of Illinois over a year prior to the firm being engaged. A North Carolina LLC sued the client for breach of contract and was seeking damages of approximately half a million U.S. dollars. The client failed to timely respond to the complaint due to the chaos caused by the COVID-19 pandemic. This matter was eventually resolved in a settlement favorable to the client.
