May 2017

We are excited to announce the release of the updated Construction Compendium of Law provided by USLAW.

The Construction Compendium is a convenient, state-by-state reference guide, discussing many of the most common substantive and procedural legal issues impacting the construction industry. Written by USLAW attorneys, including members of our Construction Practice Group, the compendium for each state is drafted by attorneys in that state with local knowledge and expertise in their jurisdiction.

The construction compendium can be found on USLAW's website here.

And to access a full list of USLAW compendia for other industries, including Transportation and Retail, visit USLAW's website here: <https://web.uslaw.org/resources/compendiums-of-law/>
