

Industry Implications of EO on Improving the Nation's Cybersecurity

Wiley Government Contracts

May 26, 2021

President Biden's recent issuance of the highly anticipated Executive Order on Improving the Nation's Cybersecurity (EO or Order), in the midst of high-profile cyber-attacks on the Nation, brought new challenges to organizations looking to secure their cyber defenses. In this multipart podcast series, Wiley's Government Contracts, Telecom, Media & Technology (TMT), and Privacy, Cyber & Data Governance attorneys provide a high-level overview of the Order. Megan Brown and Jon Burd provide an overview of the EO, the immediate ramifications for federal contractors, and layout the long-term implications for the private sector, in particular cloud providers, software providers and others in the ICT equipment and services ecosystem.
